

HealthLynked Corp. Announces Implementation of Healthcare Algorithms to Provide Personalized Healthcare Recommendations to its Members

June 19, 2018

Naples, FL- (June 19, 2018) – HealthLynked Corp. (OTCQB: HLYK) today announced that it has developed and deployed a number of healthcare algorithms for members that opt in for this service through the HealthLynked Network. The algorithms evaluate healthcare data of members and provide medical recommendations based on each user’s specific healthcare information, taking into account multiple factors including gender, age, medical history and other healthcare and personal data.

Patients rely on a range of healthcare providers to make medical recommendations for health issues and specific testing and screening. With a mission to improve healthcare, HealthLynked continues to invest in building its Artificial Intelligence “(AI)” technology, keeping members informed about their healthcare needs, updating members on the latest healthcare information, helping to avoid adverse drug interactions and providing medical recommendations around healthcare guidelines and screening.

The HealthLynked AI gives members access to advanced analytic capabilities to curate and analyze healthcare data and offers them tools and technologies to build and maintain their personal healthcare information.

AI-based solutions have great potential to improve patient outcomes and care efficiency. The HealthLynked AI platform can ease the logistical challenges in medical research by providing clean, accurate, focused and actionable data through its patient engagement and oversight.

Dr. Michael Dent, CEO of HealthLynked, stated, *“The quality of AI is only as good as the quality of the data that is collected and processed” With our HealthLynked platform, we give members the ability to bring all relevant patient information together, curate the data and use the power of AI to support precision diagnosis, personalized therapy, early intervention and improved healthcare.”*

“I am excited to announce this major milestone for HealthLynked as we look to the future of healthcare and our ability to provide personalized medical recommendations to our members based on analysis of a user’s healthcare information. We will continue to expand the breadth and depth of these services in ways that can produce meaningful results in improving the health of our members.”

Michael Dent M.D. CEO

About HealthLynked Corp.

HealthLynked Corp. provides a solution for both patient members and healthcare providers to improve healthcare through the efficient exchange of medical information. The HealthLynked Network is a cloud-based platform that allows members to connect with their healthcare providers and take control of their medical information. Members enter their medical information, including medications, allergies, past surgeries and personal health records, in one convenient online and secure location, free of charge.

Participating healthcare providers can connect with their current and future patients through the system. Other benefits to our providers include the ability to utilize the HealthLynked marketing tools to connect with their active and inactive patients to improve patient retention, access more accurate and current patient information, provide more efficient online scheduling, and to fill last minute cancelations using our “real time appointment scheduling” mobile application. Healthcare providers pay a monthly fee to access these HealthLynked services.

Forward Looking Statements

Forward-Looking Statements in this press release, which are not historical facts, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Our actual results, performance or achievements may differ materially from those expressed or implied by these forward-looking statements. In some cases, you can identify forward-looking statements by the use of words such as “may,” “could,” “expect,” “intend,” “plan,” “seek,” “anticipate,” “believe,” “estimate,” “predict,”

“potential,” “continue,” “likely,” “will,” “would” and variations of these terms and similar expressions, or the negative of these terms or similar expressions. Such forward-looking statements are necessarily based upon estimates and assumptions that, while considered reasonable by us and our management, are inherently uncertain. We caution you not to place undue reliance on any forward-looking statements, which are made as of the date of this press release. We undertake no obligation to update publicly any of these forward-looking statements to reflect actual results, new information or future events, changes in assumptions or changes in other factors affecting forward-looking statements, except to the extent required by applicable laws. If we update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements. Forward looking statements are subject to risks and uncertainties applicable to us and our operations, and some of these risks are described in our most recent annual or quarterly reports and in other filings with the U.S. Securities and Exchange Commission, including the “Risk Factors” sections of these reports and filings. These reports are available to the public at www.sec.gov.
